

# Understanding Consequences

Everything you do has consequences. When you do something wrong, something bad will likely happen. Draw a line from the children breaking the rules on the left to the what happened to them on the right. Write in what happened to each child.

Mike was playing with fire.

Jim was daydreaming.

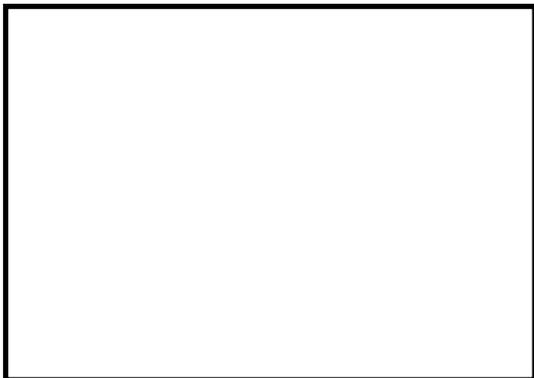

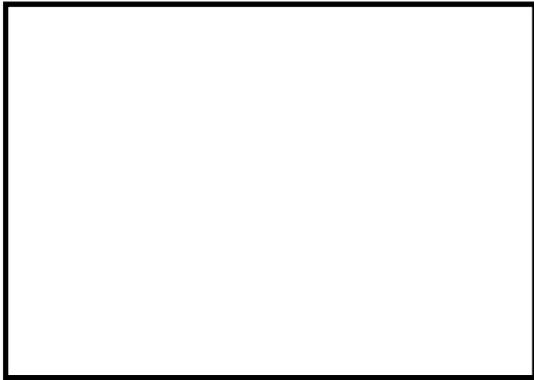

Emily deliberately broke her doll.

Josh stole candy from the drugstore.

What are some things that you did wrong that had consequences you didn't like? Draw a picture of yourself breaking a rule on the left and draw the consequence on the right.

Write in what you think are the most important rules in your school and your home.
